

# USDA INSPECTION OFFICES & INFORMATION

Inspection service for fresh fruits, vegetables, and nuts is available in the markets named below, and at various shipping points which have cooperative agreements to provide this work on behalf of the department. Requests for inspection in receiving markets should state the kind of product, the car or truck number and location, the name of the receiver, the delivering carrier, and the particular facts concerning the type of inspection desired. Prospective applicants may obtain the address and telephone numbers of the office nearest to the commodity's location by checking the USDA web site ([www.ams.usda.gov](http://www.ams.usda.gov)) or phoning the USDA's Agricultural Marketing Service (Fresh Products Branch, Fruit and Vegetable Program):

## INSPECTION INFORMATION

### INSPECTION INFORMATION

#### Where inspection service is offered

Products will be inspected at appropriate points indicated in paragraphs (a), (b), and (c) of this section whenever inspectors are available.

(a) *Shipping points*- Inspection service is available in all areas covered by cooperative agreements entered into on behalf of the Department with cooperating federal-state inspection agencies providing for this inspection work.

(b) *Destination markets*- Inspection is available in all central markets in which an inspection office is located.

(c) *Other destination points*- Inspection may be made at any point which may be conveniently reached from any terminal market in which an inspection office is located to the extent inspection personnel are available.

#### How to file an application

An application for inspection service may be filed in an office of inspection at any market or with any inspector. It may be made in writing, orally, by fax or by telephone. If made orally or by telephone, the inspector may require a written confirmation. An application may be made for one or more lots, or in the nature of a blanket application for inspection of all designated lots of a given commodity within a particular period, or for all designated lots loaded or received at a specified point. An application shall be regarded as "filed" only

when made at the office of inspection nearest the place where the commodity is located. A record showing the date and time of filing shall be made and kept in such office.

#### Appeal inspections

An application for an appeal inspection may be made by any financially interested person who is dissatisfied with the results of an inspection as stated in an inspection certificate, if the lot can be positively identified by the Inspection Service as the lot which was previously inspected.

#### Inspection fees

For an inspection covering **quality and condition**, the current fee is \$151.00 when the quantity involved is more than one-half carlot of customary size for such products but not more than a full carlot, and \$125.00 when the quantity involved is a half carlot or less. Each additional lot of the same product is \$69.00. For **condition only** inspections, the current fee is \$125.00 for more than one-half and \$115.00 for one-half or less carlot. Each additional lot of the same product is \$69.00.

Quality and/or condition inspections of products in quantities of 50 or less packages will result in the following fees: for each product, \$69.00; and for each additional product, \$69.00. Lots in excess of carlot equivalents will be charged proportionally by the quarter carlot.
