

# Are you ready for Affordable Care Act IRS reporting?

*The clock is ticking and tax season 2017 will be here before you know it.*

## The ACA Dashboard

There is a costly compliance risk with not reporting or not reporting accurately. Affordable Care Act (ACA) reporting for the Internal Revenue Service (IRS) is complicated. To avoid fines, every employer with 50 or more full-time employees (including full-time equivalents) must report in 2017 employee information based upon activities in 2016. We can help! Pinnacle Claims Management, Inc. (PCMI) has leveraged its technology capabilities and expertise with the ACA to offer ACA IRS reporting through the Pinnacle ACA Dashboard (the "Dashboard"). The Dashboard contains an ACA Reporting Essentials module that is a cloud-based solution designed to aggregate employer plan and coverage information to populate the IRS forms 1094-c and 1095-c.

### The ACA Reporting Essentials:

- Consolidates information related to offers of coverage, employees and other data for IRS reporting
- Allows you to upload information directly into the solution
- Documents different types of coverage you offer
- Generates the associated reporting codes based upon your health plan information
- Populates the 1094-c and 1095-c forms
- Produces employee statements
- Offers a mailing service option to distribute employee tax statements
- Includes E-filing service

In-house solutions and typical payroll or benefit administration reporting cannot fully address the evolving complexity of the ACA. We utilize employer-specific data to help you streamline IRS reporting and generate employee statements.

**Ready to get started?** Don't wait another day to prepare for ACA reporting requirements for tax season 2017! Contact us at (866) 930-7264 or [dashboard@pinnacletpa.com](mailto:dashboard@pinnacletpa.com) to learn more about the program or get a quote today.
